Cory,
I've written a rough draft with a couple of attachments. My typist comes in tomorrow so I should have a partial draft by Friday.

Dr. Hergenrather contact information:

Thank you, Dr. Bearman. I do not have Dr. Hergenrather's email address. Is his research listed publicly anywhere?

Dr. Bearman,

I hope this finds you well. This is Corey from Illegally Healed.

I sit on the board of directors of the Arkansas Cannabis Industry Association. As an association, we are in the process of petitioning the state to add Irritable Bowel Syndrome as a qualifying condition to the state's medical cannabis program.

Any recent research you could point us to would be very helpful to our petition.

If you are able to provide a letter of support **addressed to the Arkansas Department of Health**, that would help fulfill requirements of our petition. *You can send this directly to me and I will*

that would help fulfill requirements of our petition. You can send this directly to me and I will include in the submission to the DoH.

Joe Goldstrich, MD and Dustin Sulak, D.O. are both providing letters of support as well.

Specifically, these are the 3 areas of the petition that we are hoping your letter will assist with:

- A description of the proposed benefits from the medical use of marijuana specific to the proposed debilitating medical condition or disease.
- Evidence generally accepted by the medical community and other experts that the use of medical marijuana alleviates suffering caused by the debilitating medical disease and/or treatment.
- Letters of support for the use of medical marijuana from physicians and/or other licensed health care professionals knowledgeable about the condition or disease.

Thank you,
Corey Hunt
